

Capacity
30 kg

Air Operated Grease Pump

Working Pressure
30-50 PSI

Maximum Outlet Pressure
7500 PSI

1 YEAR
WARRANTY

Advantages

- High pressure grease pump for industrial use, with guaranteed performance and trouble-free operation.
- It dispenses grease up to 50 times faster than the inlet pressure.
- Completely made of metal, with hardened parts resistant to wear.
- Device in the suction tube that guarantees a clean grease injection.

Handle for better transportation.

Reinforced valve for grease control.

Z swivel.

Wheels for easy transportation.

Use

- Designed for use by mechanics, technicians, maintenance staff, farmers, etc. for everyday greasing and preventive maintenance jobs, from automotive, trucking and fleet to agriculture, construction & industry.
