

Br - Al Alloy

Non Spark Flange wedges

100 YEARS
WARRANTY
LIMITED

Made on Br-Al to avoid the sparks production at beating.

Available in four different sizes.

Advantage

- Provides higher mechanical properties than copper or brass tools, specially when steel tools can not be used.

Use

- Ideal for separate metallic pieces in high explosive and flammable potential environments.
- Special for Chemical industries, Petroleum, Gasoline, Mining and High explosive risk industries.

WARNING:
DO NOT USE IN DIRECT
CONTACT WITH ACETYLENE.
